Date: September 1, 2009

We are pleased to announce that effective for the 2009/2010 season, Latitude-42 and Nor'East Boy's Volleyball Clubs are now officially operating as one club. The combined clubs will play and compete under the name of Nor'East Volleyball Club under the leadership of Tony and TJ Hajjar with the full support and cooperation of the Latitude 42 organization. This combination of clubs unites two very strong volleyball clubs that are recognized regionally as leading boys' programs. Please note that both clubs are committed to improving, as well as supporting the growth and development of the two programs and their players. Any payments already made to LAT42VBC for the coming 2009-2010 volleyball season will be transferred over to the Nor'East club.

Although Latitude-42 and Nor'East have separate histories, they have always shared a common objective to unite skilled coaches, committed athletes, and supportive families in the pursuit of excellence. In order to do this, we have created an environment where highly motivated and talented young athletes can improve on their fundamentals and training to excel in volleyball at the high school and collegiate levels.

Together, we are positioned to provide our players with the most competitive club for regional and out of area tournaments. Nor' East is very proud to offer such great opportunities to these athletes. They are also committed to the development of boy's volleyball in New England by providing a support system and showcase for young athletes interested in pursuing their volleyball careers.

To expedite the clubs' merger, any outstanding financial obligations should be resolved immediately. All future transactions should go through Mr. Tony Hajjar. Any questions regarding the Latitude-42 – Nor'East transition can be discussed with Denise or Tony at numbers listed below.

Our best wishes for continued success, good luck boys.

Sincerely

Denise Miano 603 490-6179
Tony Hajjar 978 689-4106
